## DELEGATE TESTIMONIALS

The International Security Expo 2025 and the International Occupational Safety, Health and Fire Expo 2025 in Dhaka mark a major initiative in Bangladesh's security sector. This event will build awareness and foster communication between public and private sectors. Such international initiatives will help strengthen our national security system. This is not only a showcase of technology but also an effective platform for raising awareness, building networks, and enhancing public-private partnerships. The government is committed to forging close cooperation with foreign security industries to safeguard Bangladesh's electronics and cyber infrastructure. We must work together to build a safe and prosperous Bangladesh.

### Mr. Faiz Ahmad Taiyeb

Special Assistant to the Hon'ble Chief Adviser,  
Ministry of Post, Telecommunication and IT

The government is prioritizing investment in hi-tech parks, offering various incentives to attract local and foreign entrepreneurs. With facilities such as high-speed internet, electricity, and security, these parks have become ideal for installing security equipment." ISE 2025 remembered as a turning point—one that strengthens trust, builds lasting partnerships, and accelerates Bangladesh's journey toward a safer and stronger nation

### Mr. A.K.M. Amirul Islam ndc

Managing Director,  
Bangladesh Hi-Tech Park Authority

## EXHIBITOR TESTIMONIALS

As a leading provider of advanced safety, security and automation solutions in Bangladesh, Smart Safety & Automation Ltd proud to have participated in the ISE 2025 Bangladesh to showcase our latest innovations in safety, security, and automation solutions. At our booth, we featured our latest integrated systems, underscoring our mission to enhance safety, convenience and security through innovative automation technologies. The audience profile was exactly what we had hoped for: decision-makers from large commercial and institutional sectors, government agencies, technology partners, and corporate buyers.

### Mr. Mohammad Zahirul Islam

Managing Director,  
Smart Technologies (BD) Ltd

Participating in the International Security Expo Bangladesh 2025 was a tremendous experience for Computer City Technologies Ltd. (CCTL). As one of the leading technology distributors and solution providers in Bangladesh, we found the Expo to be a dynamic platform for connecting with industry leaders, government representatives, and enterprise clients who are shaping the future of security and technology. Through our participation, we showcased an extensive range of smart and secure technology solutions — from advanced surveillance systems, access control solution, and automation products from our global partner brands UNIVIEW & ZKTeco.

### Mr. Mohammed Monirul Islam

Managing Director,  
Computer City Technologies Limited

With technological advancements, Walton is committed to innovation in the electronics and security sectors in Bangladesh. Participating in ISE Bangladesh 2025 was a strategic move for Walton. As a home-grown technology and electronics manufacturer, we recognized the event as an ideal platform to showcase our latest security- and surveillance solutions, to engage with decision-makers, and to reinforce our reputation as a manufacturing hub from Bangladesh

### Mr. Touhidur Rahman Rad

Chief Business Officer,  
Walton Digi Tech Industries Ltd

Hikvision, the leading provider of security surveillance solutions in Bangladesh, is pleased to have participated in ISE Bangladesh 2025. At our booth, we showcased our latest advancements in intelligent security technologies, demonstrating our commitment to enhancing safety and operational efficiency. The event allowed us to connect with decision-makers from the commercial and institutional sectors, government agencies, technology partners, and corporate buyers. ISE 2025 provided an excellent platform for collaboration and sharing our vision for a safer Bangladesh.

### Mr. Martin Wu

Country Manager,  
Hikvision Technology PTE Ltd.

## VISITOR TESTIMONIALS

Visiting the International Security Expo Bangladesh 2025 was an incredibly valuable experience. The event brought together an impressive lineup of global and local exhibitors showcasing the latest innovations in security, safety, and automation technologies. It was inspiring to see how rapidly the security industry in Bangladesh is evolving and embracing cutting-edge solutions like AI, IoT, and smart surveillance.

**Mr. Khandoker Golam Azam**

Director, HR  
SSG - Super Star Group

The International Security Expo (ISE) 2025 showcased the rapid evolution of global security through innovations in surveillance, physical security, threat and screening detection, as well as life-saving fire safety and EHS solutions. AI, automation and data analytics highlighted the industry's shift toward intelligent, adaptive and connected security ecosystems.

The expo fostered meaningful collaboration among global experts, technology leaders and policymakers, emphasizing innovation and resilience in tackling emerging threats. Organized with exceptional professionalism by I-Station, the event featured live demonstrations and practical showcases that clearly illustrated the operational capabilities of emerging technologies. The experience reinforced confidence in Bangladesh's readiness to adopt advanced solutions and align with international standards, strengthening its position in the global security arena.

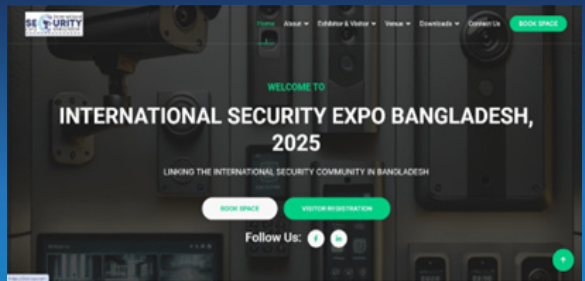

**Mr. Md. Rezoanoor Rahman Sajib**

DGM (Product management, Automation & Solution Systems)  
Global Brand PLC
